RE: LD 106 “An Act to Prohibit a Maine Clean Election Act Candidate from
   Participating in Political Action Committee Funding

Maine Citizens for Clean Elections (MCCE) opposes LD 106.

MCCE believes that strong campaign finance laws should work to reduce the influence
of big money in government, eliminate corruption and the appearance of corruption,
increase public access to information, and allow candidates to compete more equitably
for public office. We hold that sound reform creates trust, encourages participation in
our electoral system, and enhances the accountability of elected officials to their
constituents.

Maine has been largely successful in getting the big money out of the campaigns of
candidates for state office. That is because of two things: 1) An option for full public
funding and 2) reasonable contribution limits for privately funded candidates.

We understand the concerns that are raised when candidates participating in the Clean
Election public funding system also participate in fundraising for political action
committees. Although there are only a few candidates in each cycle who choose to
have a PAC, in too many instances PAC funds are raised from exactly the same special
interest groups that our public funding system was designed to avoid.

While we understand and share these concerns, we object to the proposed solution.
Were LD 106 to pass, candidates who wish to engage in the perfectly legal fundraising
activities of PACs would simply opt out of the Clean Election system and raise private
money for their own campaign and for PACs. This would in no way lessen the
influence of big money on Maine politics, and so would have absolutely no benefit to
Maine’s citizens.

Unfortunately, big money still plays a role in Maine politics, mainly through political
action committees, and that is largely because Maine has no contribution limits to
PACs. We are unique in New England in this regard. MCCE believes the time is right
to look at the laws that govern PACs. We ask the Committee to look at the PAC system as a whole, and not simply at one class of candidates’ participation in it. A quick look at the titles of bills that will come before you shows that there will be ample opportunity to do this.

The best reforms will lessen the influence of big money in Maine races, preserve the disclosure that PACs provide, and protect the First Amendment rights of speech and association that are the bedrock of our political system. We look forward to working with the Committee to advance these goals.
